OFFICE ACTION

- 1. This application remains assigned to Technology Center 1700, Art Unit 1797 and the following will apply for this application:**

Please direct all written correspondence with the correct application serial number for this application to **Art Unit 1797**.

Telephone inquiries regarding this application should be directed to the Electronic Business Center (EBC) at <http://www.uspto.gov/ebc/index.html> or 1-866-217-9197 or to the Examiner at (571) 272-1139. All official facsimiles should be transmitted to the centralized fax receiving number 571-273-8300.

Priority

2. Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d). All of the CERTIFIED copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

Drawings

3. The replacement sheets of drawings filed on 29 JUN 2010 are objected to because of the following informalities:
- a. Figures 1A, 2A, 2D, 3A, 3D, 4A, 4D, 5A, and 5D lack appropriate reference characters and lead lines to identify the illustrated elements (37 CFR 1.84(p)(q)).

- b. the drawings still contain improper sectional views. The plane upon which a sectional view is taken should be indicated on the view from which the section is cut by a broken line. The ends of the broken line should be designated by Arabic or Roman numerals corresponding to the view number of the sectional view, and should have arrows to indicate the direction of sight (37 CFR 1.84(h)(3)). Correction is required.

For example, Figure 1C should be a sectional view taken along line 1C-1C in Figure 1A (not sectional line A-A), Figure 1B should be a sectional view taken along line 1B-1B in Figure 1A, etc. All sectional views should be corrected in accordance with 37 CFR 1.84(h)(3).

Applicant should also ensure a proper one-to-one correspondence between the specification and drawings in accordance with MPEP 608.01(g) and 37 CFR 1.84(f). The brief description of the drawings and the descriptive portion of the specification require revision in accordance with the above drawing objections.

Correction is required.

4. Applicant should verify that (1) all reference characters in the drawings are described in the detailed description portion of the specification and (2) all reference characters mentioned in the specification are included in the appropriate drawing Figure(s) as required by 37 CFR 1.84(p)(5).
5. The drawings are objected to because suitable descriptive and concise text legends should be provided to label the depicted elements of the invention such as the pumps 10, controller 13, sensor 12, in Figure 1C for understanding of the drawings (37

CFR 1.84(o)). Suggested formats for labeling the elements of the invention via text legends can be found in Figs. 1-2b of US Patent No. 6,568,842; Fig. 1 of US Patent No. 6,554,467; or Figs. 1-4 of US Patent No. 6,367,960. Note elements such as "WATER METER", "TRANSFER PUMP", and "HEATER" are clearly labeled with such text legends for improved and rapid understanding of the drawings.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" (37 CFR 1.121(d)) and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheets must be clearly labeled as "Annotated Marked-up Drawings" and accompany the replacement sheets.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

Specification

6. The disclosure is objected to because of the following informalities:
 - a. Page 10, line 22: to agree with claims 9 and 23, insert --or baffles-- after "mixer/agitator vanes" to clarify the disclosure.
7. The substitute abstract is acceptable.
8. The amended title is acceptable.

Claim Objections

9. Claims 18, 26, 27, and 28 are objected to because:
 - a. Claim 18, line 1: replace "An apparatus" with -- A method--.
 - b. Claim 26, line 1: replace "The method" with --A method-- to agree with the other claims.
 - c. Claim 27, line 1: replace "The method" with --A method-- to agree with the other claims.

11. This application is in condition for allowance except for the formal matters outlined above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).
